Premiere! The PJM newsletter is now available

This is the first of its kind - the Piper + Jet Maintenance Newsletter. From now on we will inform you at irregular intervals about news, innovations and more from inside the General Aviation.

In addition, you will always be the first to receive information about future promotions by PJM - so it's worth taking a look.

ADS-B upgrade obligation postponed

Due to the corona crisis, the ADS-B equipment requirement will be extended by six months until December 7, 2020. These should actually apply in European airspace from June. According to this, ADS-B data must be broadcast from aircraft that have a take-off mass of more than 5.7 tons or are faster than 250 knots.

Cooperation with GM Aviation for avionic installations

PIPER + JET MAINTENANCE AG
LUFTFAHRTTECHNIK

EASA Part 145 DE.145.0461
EASA Part CAMO DE.CAMO.0006

Since the beginning of the year, Piper + Jet Maintenance AG has had a cooperation with GM Aviation based in Winnigen for all kinds of avionic installations. We are pleased to be able to expand our flexibility and service strength with this competent partner even a little more.

Are you interested in avionics equipment or do you have any questions? We are happy to help!

We expanded - warehouse and maintenance hall

In 2018, Piper Deutschland AG submitted a planning application for the construction of a second warehouse / maintenance hall.

We are pleased that the construction is now well used from both companies, Global Aviation + Piper Parts (aircraft spare parts) and by Piper + Jet Maintenance as maintenance hall.
